Seeking a challenging role in a dynamic organization to enhance my skills, contribute effectively to its growth, and advance my professional development.

Education

B. TECH in COMPUTER SCIENCE AND ENGINEERING(AIML)

PES University, Bangalore CGPA: 8.78

II PUC - Science (PCMB)

Kumaran's Composite PU College, Bangalore Percentage: 95.33%

10th CBSE Board

Auden High School, Bangalore Percentage: 92.33%

Skills

C, Python, JavaScript, ReactJS, NodeJS, Express, MongoDB, Data Structures and Algorithms, Linux, GIT, SQL

Relevant Course Work:

Object Oriented Programming, Databases, Advanced Data Structures and Algorithms, Operating Systems, Computer Networks

Projects

WellNet (Hospital and Patient Record Management System)

(MERN Stack + UI+ GIT)

- Built WellNet Healthcare Management Platform - a comprehensive MERN stack application enabling doctors and patients to manage appointments, medical records, and treatments.
- Implemented real-time disease outbreak tracking using crowdsourced health data with spike score algorithms, automated email notifications, and medication reminders. Ensured user-friendly interaction with efficient data visualization and analysis.
- Established CI/CD pipeline with 86%+ test coverage using Jest, ESLint for code quality, and GitHub Actions for automated deployment

Social Feed System | Full Stack Social Media Platform

(MySQL + JWT + ReactJS + ExpressJS)

- Implemented automated data management using triggers, procedures, and functions.
- Built secure authentication system with JWT tokens and bcrypt encryption.
- Developed RESTful API with comprehensive validation and error handling.
- Created responsive frontend with modern React patterns and Tailwind CSS.

Code Coach AI Chat Bot

(MongoDB + ReactJS + ExpressJS + NodeJS)

- Developed a full-stack coding assistant platform with secure authentication, real-time chat and personalized user session. Built backend APIs and data models to manage users, messages, code snippets, and chat history for a smooth coaching workflow.
- Designed a responsive React frontend dashboard with clean UI/UX for seamless interaction, progress tracking, and guided coding support.

Achievements

Recipient of CNR Rao Scholarship and DAC Scholarship for excellent academic performance.
